Experience

Adyptation | OH, Springboro

Senior Software Engineer | 12/2020 - 04/2023

- Created and maintained new customer facing mobile application written in React Native. I was responsible for managing nearly every aspect of the app, including releases to the app store.
- Created multiple JavaScript libraries to encourage the reuse of code for the software team. A few libraries I set up includes: Web UI components, utility functions, API hooks for React, feature flags for React, Next.js helpers, and an internal TypeScript types package.
- Mentored and lead the other developers on the team. Worked with others to grow their skills on an ongoing basis. Spearheaded the UX/UI team with the help of a graphic design intern.
- Worked weekly alongside the CTO to architect solutions from the product roadmap. Together we would break down the larger objectives into specific Jira tasks for other developers, while also writing Confluence documentation for epics and user stories.
- Contributed to numerous DevOps automated workflows/builds using GitHub Actions and Fastlane.

Vaultz Inc | OH, New Albany

Software Developer | 06/2019 - 11/2020

- Performed multiple React-Native library upgrades.
- Set up automated build pipeline utilizing Fastlane.
- Satisfied the ever-changing requirements of the App Stores.
- Built multiple new Front-End web products using React and Redux.
- Built new Node.js based back-end microservice for handling invoicing for our existing customer base.
- General development including bug-fixes, and new features to existing products.

Caresource Health Care Management | OH, Dayton

Mobile Application Developer | 09/2018 - 06/2019

- Developed reusable components and libraries utilized across multiple company mobile applications.
- Built Enterprise-scale applications for Android and iOS with Java and Swift languages, as well as React-Native.
- Assumed the Lead-Developer role in writing new Biometric Authentication feature for Enterprise Application.
- High affinity for writing and maintaining Unit and End to End Tests through Jest and Detox frameworks.
- Mentored other developers with Unit testing, features, implementation, debugging, building reusable libraries, as well as React-Native and JavaScript.
- Important contributions to feature implementation ideas and flows. Worked alongside Tech BA to outline story acceptance criteria where knowledgeable.

Skills

React, React Native, Javascript, AWS, Node.js, Next.js, iOS, Android, TypeScript, Jest, Python, NPM Packages, Reusable Code Libraries, DevOps, Product Planning, Parcel, Webpack, Expo, REST, GraphQL, API, Confluence, MySQL, SQL, NoSQL, MongoDB, DynamoDB, CRON, Serverless, UX/UI, HTML5, CSS, SCSS (Sassy Cascading Style Sheets), Sass (Syntactically Awesome Style

Sheets), ES6, Java, JSON, Documentation review, Time management, Communication skills, Agile Software Development, GIT, JIRA, Unit Testing, End to End Testing

Education

North Adams High School | Seaman, OH
High School Diploma 05/2010
